Business English Speaking Skills: Meetings, Calls, Presentations and Negotiations

Ref: 486_14579 **Date:** 15 – 19 February 2027 **Location:** Dubai - Five-star CBD venue **Fees:** 19500 SAR

Introduction:

Meetings that run long because points are misunderstood, calls that end without agreed actions and presentations that lose the room cost organisations time and credibility when English is a working rather than a first language. Business English speaking is a trainable skill set built on the right phrases, clear pronunciation and practice under realistic pressure. This Core Concept course helps Arabic-speaking professionals speak with fluency in meetings, calls, presentations and negotiations through daily role-plays. Participants finish with a Personal Spoken English Development Plan, a phrase bank and recorded evidence of progress.

Course Objectives:

- Rate own spoken interaction and spoken production against CEFR descriptors and set targets for fluency and intelligibility
- Correct the pronunciation and stress patterns that most often reduce intelligibility for Arabic speakers of English
- Chair and take part in meetings in English, including polite interruption, summarising and agreeing action items
- Conduct telephone and video calls in English and confirm outcomes in a short follow-up email
- Present information and figures in English, respond to audience questions and use negotiation phrases to reach agreement
- Build a Personal Spoken English Development Plan with a workplace phrase bank from recorded role-play feedback

Target Audience:

- Specialists and coordinators who take part in English-language meetings with colleagues, suppliers or clients
 - Team supervisors who brief staff and report progress to English-speaking managers
 - Customer-facing and account staff who handle calls and video meetings with international partners
 - Project and technical staff who present updates, figures and recommendations in English
 - Procurement, sales and partnership staff who discuss terms and offers in spoken English
-

Course Outline:

-

Skills You Will Gain:

- Spoken Fluency
- Intelligible Pronunciation
- Meeting Facilitation in English
- Telephone and Video Call Handling
- Business Presentation Delivery
- Negotiation Language
- Active Listening and Clarification
- Networking Conversation

Why Attend This Course:

- Leave with a Personal Spoken English Development Plan and a phrase bank built from your own recorded role-plays
- Hear the difference between your first and final recordings and know which sounds and stress patterns to keep practising
- Walk into your next meeting, call or negotiation with ready phrases for interrupting, summarising and confirming agreements
- Practise daily with professionals from other sectors who also use English as a working language

Conclusion:

Spoken English at work improves fastest when the right phrases are practised aloud in the situations where they are needed. The course moves from a recorded baseline and networking conversation, through pronunciation and stress work aimed at Arabic speakers, to meetings, calls, presentations and negotiation. The final day records a full meeting and presentation, gathers structured feedback and turns it into a Personal Spoken English Development Plan and phrase bank for continued practice back at work.
