Advanced Leadership Skills: Leading Teams, Influence and Decision-Making

Ref: 8_8156 **Date:** 24 May – 4 June 2027 **Location:** Dubai - Five-star CBD venue **Fees:** 35100 SAR

Introduction:

Many organisations have experienced managers whose teams still stall: decisions wait for the manager, conflict goes underground, accountability is unclear and influence stops at the department boundary. This ten-day Advanced Leadership Skills course from CoreConcept addresses that gap. Week one builds capability in leadership models, style choice, team trust, delegation and decision-making. Week two adds influence without authority, ethical accountability, leading across the organisation and measuring leadership effectiveness. Through role-play and case practice, each participant builds a Leadership Impact Plan for their own team and organisation.

Course Objectives:

- Apply Situational Leadership and transformational leadership behaviours to choose and adapt a leadership style to individual team members and situations.
- Diagnose team problems with Lencioni's Five Dysfunctions of a Team and rebuild trust, productive conflict and peer accountability.
- Delegate work and make structured team decisions using decision rights matrices and options appraisal.
- Influence peers, senior managers and other departments without formal authority through persuasive business cases and stakeholder engagement plans.
- Lead with ethics and accountability, recognising leadership derailers and escalating team risks early.
- Set performance expectations, sustain engagement and measure leadership effectiveness through a Leadership Impact Plan.

Target Audience:

- Managers responsible for leading departments or functional units and their results
 - Team leaders accountable for the daily performance and development of several direct reports
 - Project and programme managers who lead cross-functional teams without line authority
 - Managers in technical or specialist functions taking on broader people leadership responsibility
 - Operations and service managers responsible for team engagement, standards and delivery
-

Skills You Will Gain:

- Leadership Style Adaptation
- Team Trust Building
- Delegation Planning
- Structured Team Decision-Making
- Persuasive Leadership Communication
- Stakeholder Mapping
- Ethical Judgement
- Leadership Effectiveness Measurement

Why Attend This Course:

- Lead a mixed-experience team with a deliberate style choice rather than habit, and see the difference in engagement and output.
- Resolve recurring team friction, slow decisions and unclear ownership using tested diagnostics and rehearsed conversations.
- Practise presenting to and negotiating with senior peers, with observer feedback on every attempt.
- Return with a peer-reviewed Leadership Impact Plan and ninety-day roadmap ready to apply to your own team.

Conclusion:

Leadership at the managerial level is judged by what teams achieve when the leader is not in the room. This course moves participants from understanding leadership models to applying them in rehearsed conversations, structured decisions and deliberate influence across the organisation. By the final day, each participant has tested their approach against peers, received observer feedback and assembled a Leadership Impact Plan with a ninety-day roadmap, giving them a practical basis for leading their teams with clearer direction, stronger trust and measurable results.
